SUMMARY

This CV is working example, technical product demonstration and open application combining technology and innovation management with strategy and finance in regulated environments. Evidence: GenAI and RAG search at CENVION, decision analysis for Swisscom and Airbus including M&A, banking-sector and consulting across four markets. If that fits, let us speak – gladly about your mandates, goals and open questions across Switzerland or remote. To adapt it: target profile | differentiation | two evidenced results | clear value for your team.
